

# SINK COLLECTION CERAMIC TERRAZZO

## Extra information

This washbasin is a real beauty! The LooX Ceramic Terrazzo is a beautiful combination of functionality and design. The washbasin is easy to clean and fits perfectly in a modern bathroom.

## Terrazzo in the bathroom

Terrazzo is a well-known concept in interior design. Its roots can be found in Italy where materials like sand, cement and natural stone granules were mixed to form one compound. This creates a playful pattern. Today, this look can often be seen in floors and kitchen worktops, for example. Following the introduction of our new washbasin, this style can now also be introduced in the bathroom.

LooX is not a standard sanitaryware brand. We are stylish, robust and a little bit surprising. That's why this newcomer fits perfectly in our current collection. The washbasin is playful and ideal for combining with our [oak bathroom furniture](#). Available in three unique colours: Grey, Beige or Black.

## Technische specificaties

Ceramic Terrazzo

**Diameter** 40 cm
