

CLOSED COLLECTION TOILET BRUSH HOLDER

Extra information

No more irritation about your toilet brush thanks to the LooX integrated toilet brush holder. Practical, hygienic and stylish! The LooX Closed series includes series of storage systems for the toilet brush. Thanks to this series, the toilet brush is now tidily stored away but still to hand. Do you want an integrated stainless steel toilet brush holder or a tileable version, whereby the toilet holder is hidden behind the tiles in the wall? So many options!

Nice detail: above the toilet brush there is a storage compartment. This extra storage area is ideal for a toilet roll for example. You can also place a [toilet roll holder](#) above the integrated toilet brush. View our options!
